

COVER LETTER

Dear Hiring Manager,

I am writing to express my interest in an attachment or internship opportunity within your organization. I am currently pursuing a Bachelor of Computer Science at Karatina University and have developed a strong foundation in full-stack web development, database systems, and software engineering principles.

Through my academic work and personal projects, I have gained practical experience in building responsive and functional web applications using technologies such as React.js, Node.js, MySQL, and MongoDB. Notably, I developed a service listing platform that enables users to connect with service providers, as well as an online contribution portal featuring secure authentication and transaction management. These projects have strengthened my ability to design, develop, and debug real-world systems.

I am particularly interested in opportunities where I can apply my technical skills in a professional setting while learning from experienced developers. I am a fast learner, highly adaptable, and committed to delivering quality work while continuously improving my skill set.

I would greatly appreciate the opportunity to contribute to your team and further develop my capabilities in software development and related fields. I am available at your convenience for an interview and can be reached via phone or email.

Thank you for your time and consideration.

Yours sincerely,

Stephen Vundi Ngui
